

AYAT ALKHATIB

PROFESSIONAL SUMMARY

Software & Web Developer with hands-on experience in full-stack web applications, UI/UX design, and .NET/TypeScript development.

EDUCATION

University of Arkansas at Little Rock, Little Rock, AR
Bachelor of Science, Information Science, Expected in 12/2026

- SKILLS
- .NET (.NET 8 / .NET 10)
 - HTML5 / CSS3
 - Firebase
 - Web Accessibility
 - Git / GitHub
 - Agile / Scrum

- TypeScript
 - Real-time database management
 - Responsive Web Design
 - SQL / Oracle PL/SQL
 - Target Process
 - Change Management (CM) Systems

- EXPERIENCE
- APPLICATION DEVELOPER INTERN | 06/2026 – Present
USable Life, Little Rock, AR

- Upgraded web applications to .NET 10 and wrote modular TypeScript following team design patterns and standards.
 - Managed automated package updates via Dependabot, authoring user stories, CM tickets, and testing patches for deployment.
 - Executed Git version control workflows, resolved complex merge conflicts, and conducted PR reviews to ensure codebase stability.
 - Implemented web accessibility standards across user interfaces, leveraging dev formatting tools to enhance inclusivity and code quality.
- FOUNDER | 05/2025 – Present
Mafia Game — Full-Scale Web Game Development Project, Little Rock, AR

- Programmed real-time social deduction mechanics and lobby syncing using Firebase.
 - Integrated live chat and voting systems to enable instant player interaction.
 - Added speech synthesis technology for dynamic voiceover narration during phase shifts.
 - Developed an accessible, mobile-responsive front end (HTML/CSS/JS) that requires zero downloads.
